Sir:

**REQUEST FOR CORRECTION OF FILING RECEIPT**

Applicants received a "Filing Receipt" dated February 18, 2004 on the above-identified patent application. The Filing Receipt includes several U.S. Patent and Trademark Office errors relating to applicants' priority claims. Applicants return herewith a copy of the Filing Receipt for correction of these errors, prior to issuance of the patent. This communication accompanies payment of the issue fee for the application.

The application claims priority from two provisional patent applications: U.S. Provisional Patent Application Serial No. 60/427,908, filed November 19, 2002, and U.S. Provisional Patent Application Serial No. 60/512,136, filed October 17, 2003. These applications are listed in the first section of the application, entitled "Cross-References to Priority Applications."

The application also cross-references, without a claim for priority, a number of other U.S., provisional, and PCT patent applications. These applications are listed in the second section of the application, entitled "Cross-References to Additional Applications."

The Filing Receipt for the application lists six provisional patent applications under "Domestic Priority Date," including the two priority applications identified above, which should be listed, and four additional provisional applications that simply were cross-referenced, which should not be listed.

Applicants respectfully request correction of the Filing Receipt by deleting reference to the four erroneously listed provisional patent applications. The requested corrections are noted in pencil on the attached copy of the filing receipt and in amendment format below (with deletions noted in ~~[[double brackets, bold, and strikethrough]]~~):

This appln claims benefit of 60/427,908 11/19/2002  
and claims benefit of 60/512,136 10/17/2003  
~~[[and claims benefit of 60/427,910 11/19/2002  
and claims benefit of 60/512,111 10/17/2003  
and claims benefit of 60/512,322 10/17/2003  
and claims benefit of 60/512,323 10/17/2003]]~~

The corrected priority data should be listed on the patent.

Please contact the undersigned with any questions or comments, or if applicants can be of any assistance in expediting issuance of the patent.

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
